

TO: All Employees & Contractors

FROM: Managing Directors

SUBJECT: Export Policy Statement

In support of national security, U.S. and global efforts to fight the battle against terrorism, and the legal responsibilities and business interests of this company, Lufthansa Technik Component Services (LTCS) has implemented export control procedures that all company employees are required to follow.

It is the policy of LTCS that all of its employees, departments, divisions, domestic and foreign subsidiaries, and affiliates must comply with the U.S. Government export control laws and regulations. No transactions are to be conducted by or on behalf of LTCS that may potentially violate U.S. export control laws and regulations. In particular, LTCS employees with export related job responsibilities must apply due diligence to ensure they abide by all U.S. export control laws and regulations, and comply with LTCS's export control guidelines, policies, and procedures as outlined in the company's Export Management and Compliance Program Manual (EMCP).

LTCS supports U.S. efforts to prevent proliferation of weapons of mass destruction. Special care must be taken to prevent any transaction with entities involved in the proliferation of weapons of mass destruction and prohibited activities involving missile, nuclear, chemical and biological warfare. LTCS employees with export responsibilities are required to have a working knowledge of export control laws and regulations, especially those governing their specific job functions, as well as a working knowledge of company export control policies and procedures.

Failure to comply with such laws and regulations may result in severe consequences, including the imposition of criminal and/or civil fines and penalties, imprisonment and the denial of export privileges.

We ask each of you to take this matter very seriously and to support us in this effort. Any questions concerning the legitimacy of any transaction, violation, or potential violation of the United States laws and regulations governing exports and re-exports should be immediately addressed to lcs.export.compliance@lth.dlh.de.

Note: This statement of corporate commitment to export compliance will be posted on the company website <http://www.lht-component-services.com/compliance> and will be updated if necessitated by personnel changes, changes in management, or regulatory changes.
